WOMEN IN TECH

TIME TO CLOSE THE GENDER GAP

WHAT CAN WE DO TO AMPLIFY THINGS THAT ARE WORKING?

Only **3%** of girls consider a career in tech

The gap starts at school and continues through every stage of a woman's career

Share stats between companies what works well?

Show how creative you can be in tech

Male as well?

Girls should have the right role models to show they can go anywhere

WHAT CAN WE BRING EVERYONE TOGETHER TO DO?

Increase access to the tech sector and mentors

Film plays a big role in changing perceptions

We need a common dialogue

VISIBLE ROLE MODELS are very important

3 KEY FACTORS

- Not given enough info at school
- Not encouraged
- Too male dominated

School is the best time to inspire

WHAT WOULD SUCCESS LOOK LIKE?

CODE IS COOL!

change the conversation

It doesn't have to be **TECH** to be for girls

We need to show school children what options are available

We need to support women in the work-life balance

50:50 split

Educate parents on tech careers

Engage with schools to break down barriers

Work with science teachers in schools

ACTION!
Let's take these ideas forward to
MAKE A DIFFERENCE
